

Pearl Marine BWP 710 Series Brochure

IS:710 Certified 72-Hour Boiling Water Proof Marine Plywood

1. PRODUCT OVERVIEW & APPLICATION ZONES

Pearl Marine BWP 710 is engineered for high-moisture interior cabinetry and coastal architectural installations.

- Ideal Applications: Modular Kitchen base cabinets, under-sink carcass boxes, bathroom vanity counters, dining tables, and yacht interiors.

2. LABORATORY PERFORMANCE & BIS STANDARDS

- 72-Hour Boiling Water Immersion Test: Submerged in 100°C boiling water for 72 continuous hours with zero delamination and zero edge swelling.
- Glue Shear Strength: Exceeds 1450 N (Dry state) and 1250 N (Wet state) per IS:1734 Part 4.
- Mycological & Termite Defense: 100% vacuum pressure impregnated with organo-chemical preservatives (IS:5539).
- Modulus of Rupture (MOR): $> 58 \text{ N/mm}^2$ along grain | Modulus of Elasticity (MOE): $> 6800 \text{ N/mm}^2$.

3. 25-YEAR REPLACEMENT GUARANTEE

Every authentic sheet bears a laser-engraved QR code and BIS License CM/L-8472910.

Backed by Pearl Ply's 25-Year Peace of Mind warranty against borers, termites, and manufacturing defects.
